

Allium sphaerocephalon

Allium sphaerocephalon, aka Drumstick allium, is a later-blooming allium that's effective planted in large clusters. The small wine-red umbels on 24-inch stems add interest to the early summer garden. Their egg-shaped flowers manage to look both elegant and whimsical. Available from Colorblends.com, a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners coast-to-coast with a minimum order of \$60. See Colorblends.com or call 1-888-847-8637.
