

## **Amaryllis Bulbs Growing**

Typically, potted amaryllis bulbs bloom about eight to 12 weeks after planting. It's normal for the bulbs to take their time before growth appears. Once planted and watered in, a bulb may take three to eight weeks to produce its first stem. Large, top-quality amaryllis bulbs are available at wholesale prices from [Colorblends.com](http://Colorblends.com), with a minimum order of \$60. Visit [Colorblends.com](http://Colorblends.com) or call 1-888-847-8637.
