

Plant Amaryllises, Various Pot Sizes

Few supplies are needed to plant amaryllis bulbs: the bulbs, potting soil and flowerpots with a drainage hole and saucer. To plant one large bulb, choose a pot with a seven- or eight-inch diameter. To plant three bulbs together, choose a broad, non-tippy pot with an 11-inch diameter. Large, top-quality amaryllis bulbs are available at wholesale prices from Colorblends.com, with a minimum order of \$60. Visit Colorblends.com or call 1-888-847-8637.
