

Paperwhite Narcissus 'Nir'

Here's a tip for winter windowsill gardeners who enjoy growing paperwhite bulbs. Most paperwhite Narcissi are strongly scented, but some varieties smell better than others. The standard variety 'Ziva' is powerfully fragrant with a heavy sweetness that pleases many but turns off others. For a different paperwhite experience, Colorblends.com suggests a newer variety, 'Nir'. Its perfume is soft, not overpowering. Other 'Nir' benefits include larger, showier white flowers and shorter stems that are less likely to flop over if grown in a sunny spot.
