

### **Colorblends Daffodil Blend Spring Loaded**

Colorblends Daffodil Blend Spring Loaded is an economical solution for planting daffodils in large quantities. It features at least 15 top-notch varieties encompassing the full range of daffodil colors and bloom times. Depending on weather, it provides up to six weeks of bloom, early to mid-late season. When planted in a sunny location where the soil drains well, daffodils typically naturalize, coming back to bloom in subsequent springs. Perhaps best of all, deer and rodents leave daffodils alone because they contain a bitter toxic alkaloid called lycorine. All daffodils are deer and rodent proof. Colorblends is a wholesale resource for top-quality flower bulbs. The Connecticut-based firm sells direct to landscape professionals and home gardeners coast-to-coast with a minimum order of \$60. See [Colorblends.com](http://Colorblends.com) or call 1-888-847-8637.
