

Crocus Tommies, *Crocus tommasinianus*

Crocus tommasinianus, often called Tommies, are among the earliest flower bulbs to bloom in early spring. The four-inch tall bulb flowers create a carpet of color when planted en masse. Snow rarely bothers them. Tommies are easy to grow, flower prolifically and, in most settings, come back to re-bloom, year after year. Available from Colorblends.com, a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners nationwide, with a minimum order of \$60. See Colorblends.com or call 1-888-847-8637.
