

Re-Trim Stems of Cut Amaryllis, CU

Amaryllis last longer in the vase if you keep the stems' water uptake channels open by trimming the stem ends by an inch or more, once or twice weekly. Ideally, trim before the ends begin to split and curl. If curling has begun, trim off two or more inches. Top quality amaryllis bulbs are available at wholesale prices from Colorblends.com with a minimum order of \$60. Visit Colorblends.com or call 1-888-847-8637.
