

Daffodil 'Frosty Snow'

Narcissus 'Frosty Snow' is an especially charming white daffodil with a soupçon of mystery. When the flower opens, its rounded white petals surround a broad yellow cup with ruffled edges. As the days pass, the yellow begins to retreat. Where initially it fully covered the cup, now the yellow rims only the edges, then it vanishes entirely. Details: height 16- to 18- inches, bloom time early-mid season, plant in well-drained soil in full sunlight, USDA Zones 3-7, Western Zone to 9. Available from Colorblends.com, a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners coast-to-coast with a \$60 minimum. See Colorblends.com or call 1-888-847-8637.
