

Daffodil 'Segovia'

Daffodil 'Segovia' has dainty flowers that are rather flat, with white petals surrounding small chartreuse cups. The stems are unusually short so the flowers appear to be nestled amongst, or floating atop, the green grassy leaves. This is an excellent variety for planting thickly in a naturalistic setting or between shrubs. It blooms in early-mid spring and grows to 8- to 10-inches tall. Available from [Colorblends.com](https://colorblends.com), a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners nationwide, with a \$60 minimum. See [Colorblends.com](https://colorblends.com) or call 1-888-847-8637.
