

Daffodil 'Sweet Ocean'

Daffodil 'Sweet Ocean' is a terrific new jonquil with double flowers and a light, sweet fragrance. It grows 14- to 16-inches tall and blooms itself silly in early-mid season. The yellow flowers open to reveal ruffled orange centers. Things change quickly as the yellow petals pale to creamy white and the orange centers take on pink accents. In the garden or landscape, a stand of 'Sweet Ocean' presents a multicolored blur of yellow, cream and white, laced with hints of orange and apricot pink. All daffodils are deer and rodent proof. Available from Colorblends.com, a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners nationwide, with a minimum order of \$60. See Colorblends.com or call 1-888-847-8637.
