

Daffodil 'Tom Pouce'

Daffodil 'Tom Pouce' is a large-cupped Narcissus so adorable it stops people in their tracks. The creamy yellow flowers are star-shaped. A white halo surrounds an apricot-colored cup with a ruffled rim. In the garden, shifting sunlight makes the pale petals appear luminous and the cups pick up glints of pink, coral or yellow. 'Tom Pouce' is 14- to 16-inches tall and blooms in early season. All daffodils are deer and rodent proof. Available from [Colorblends.com](https://colorblends.com), a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners nationwide, with a minimum order of \$60.
