

Hyacinth 'Yellowstone'

Hyacinth 'Yellowstone' adds an appealing new color to a flower family prized for fragrance. "This is, arguably, the best yellow color in hyacinths to date," says horticulturist Christian Curless of Colorblends. 'Yellowstone' has rich butter-yellow florets that are accented by a darker yellow at the centers and flapsides. As the flowers age, the soft yellow fades to a creamy yellow, retaining strong presence. They stand nearly 10 inches tall and bloom in early season. Available from [Colorblends.com](https://colorblends.com), a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners nationwide, with a minimum order of \$60.
