

Naturalized Daffodils, Rural Slope

Year after year, daffodils come back to bloom in spring when planted in full sun where the soil drains well. "Daffodils are a good investment, ideal for long-term plantings -- plus, deer and rodents won't eat them," says Tim Schipper of Colorblends.com, a resource for top-quality flower bulbs. The Connecticut-based wholesale firm sells direct to land care professionals and home gardeners coast-to-coast with a minimum order of \$60. See Colorblends.com or call 1-888-847-8637.
