

Paperwhite Narcissus 'Nir'

Paperwhite Narcissus 'Nir' produces abundant clusters of fragrant flowers indoors in fall and winter. The scent is soft and pleasing. The bulbs are easy to grow as potted plants or "on water" in pebbles or glass beads in a water-tight container. Allow five or six weeks from planting to bloom. TIP: For flowers by mid- to late-December, plant by November 10. For premium paperwhite bulbs at wholesale prices, see Colorblends.com, or call 888-847-8637.
