

Snowflake, Leucojum, CU

Snowflake (Leucojum 'Gravetye Giant') is a graceful spring blooming bulb flower. Its clusters of small white bell-shaped blooms are carried on arching stems approximately 18-inches tall. It flowers in mid to late spring and prefers rich, not-too-dry soil in full sun or light shade. Indeed, it's known for its ability to thrive in damp areas and along partially shaded streams. Leucojum is deer and rodent proof. Foraging animals do not eat them. Available from [Colorblends.com](https://colorblends.com), a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners coast-to-coast with a \$60 minimum. See [Colorblends.com](https://colorblends.com) or call 1-888-847-8637.
