

Striped Squill, *Puschkinia scilloides*

Striped Squill (*Puschkinia scilloides*) is a lesser-known bulb flower that produces abundant, white, bell-shaped flowers with slim stripes of bright blue. Plant the bulbs in sunny spots, either in garden beds or into grass. Though only 5- to 7-inches tall, their bright flowers have big appeal in early spring. Available from Colorblends.com, a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners nationwide, with a \$60 minimum. See Colorblends.com or call 1-888-847-8637.
