

Tulip 'Gudoshnik'

Tulip 'Gudoshnik' is known for its idiosyncratic flowers, each related to but looking unlike its siblings. The mid-season blooms are randomly variegated, ranging from plain creamy peach to deep rose-red to every variation in-between. They grow to 22- to 24-inches tall. Gudoshnik means "artist" in Russian. Available from Colorblends.com, a Connecticut-based flower bulb wholesaler that sells direct to landscape professionals and home gardeners coast-to-coast with a minimum order of \$60.
