

'Tottering-by-Gently'

English Rose 'Tottering-by-Gently' produces masses of single yellow flowers held in large, open sprays. It blooms in flushes from early summer till frost. The flower is simple, with 5 petals surrounding golden stamens. Each flower is about 2.5 inches across. The fragrance is a light-medium musk with fresh notes of orange peel. If not deadheaded it will produce a fine crop of large, long lasting, orange-red hips. Grows 4 feet tall by 4 feet wide. Companion plant: the biennial, teasel.
